Coloured Resin Bound Surfacing System From Addagrip Terraco Ltd

Adding colour
to create stunning
surface designs,
patterns and
logos

Experts in Resin Since 1980

addacolor®

Addacolor retains all of the benefits of our standard resin bound paving and is ideally suited to those projects that require a splash of colour both inside and out.

Addacolor is UV stable and ideal for demarcation, logos, patterns and designs as well as regular projects associated with resin bound surfacing such as footpaths, playgrounds, swimming pool surrounds, courtyards and other pedestrian schemes.

Using templates, our approved contractors can create intricate patterns and wording to any size.

If you are looking for a hard wearing, low maintenance decorative aggregate surface with the wow factor - Addacolor fits the bill.

A range of 12 standard colours are available, however, special colours can be supplied on request. We can match RAL colours to create a bespoke logo or match a corporate colour scheme.
